-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Amendment***

1. This Office action is responsive to Applicant's amendment received on July 30, 2004.

Claims 1-44 are pending.

2. After further review, it is noted that claims 1-44 are subject to restriction and/or election requirement.

**Election/Restrictions**

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, Applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

**Group 1.** Claims 1-24, drawn to a method or system for securely transferring control to a system management mode, are classified in Class 713, subclass 200.

**GROUP II.** Claims 25-44, drawn to a method or system for developing a program system that validates system management interrupt (i.e., a software development and management tool), are classified in Class 717, subclass 100 or subclass 105.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as securely transferring

control to a system management mode. Invention II relates to a method or system for developing a program system that validates system management interrupt (i.e., a software development and management tool), thereby having separate utility. See M.P.E.P. 806.05 (d).

Because inventions I and II are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because the searches for the individual inventions are not coextensive, restriction for examination purposes is proper.

### **Conclusion**

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel L. Moise whose telephone number is (571)272-3865. The examiner can normally be reached on M-W (9:30-6:00).
